

## Welcome To Our Office

### Outline of Procedures for New Patients

#### Step 1

---

All new patients are requested to fill out a confidential "**Patient Health Record**".

#### Step 2

---

A Chiropractic Health Assistant will perform some computerized testing with prior to seeing one of our doctors. An in-depth, technologically-advanced assessment of your nerve and energy system is conducted to determine how well your brain is communicating with your body. Any interference to this communication can be measured by **surface electromyography** which studies muscle function and **dermathermography** which illustrates inflammation. **Ranges of motion** are also tested and **bilateral weight scales** determine weight distribution asymmetries indicative of spinal abnormalities, and a **computerized gait analysis** studies the effects on posture.

#### Step 3

---

A "**Consultation**" with the doctor to discuss your health problems.

#### Step 4

---

A "**Chiropractic Examination**" is performed to determine if chiropractic care is appropriate for your condition. As well, if indicated, a referral for **x-rays** will be made to visualize the location of spinal problems.

#### Step 5

---

If your case requires immediate attention, **first day Chiropractic care** will be administered.

#### Step 6

---

You will be advised as to a time you can return for your "**First Adjustment Visit**" where your doctor will briefly outline your initial care recommendations and one of our Chiropractic Health Assistants will review a few of our office policies with you.

#### Step 7

---

You will also be advised as to a time you can return for a "**Doctor's Report**" done by one of our doctors. During the Doctor's Report we will give you, your family and friends the opportunity to learn what you can do to help us return you to health more quickly and cost effectively, and what one needs to do to stay healthy. Our records show that those patients who respond most rapidly to care are those who have learned to help themselves.

The doctor will go over your examination results, provide you with copies of your tests and answer any questions you may have. You will also be advised concerning financial arrangements and insurance coverage as appropriate.

#### Step 8

---

Chiropractic care will begin and continue as scheduled until your condition has been fully corrected, or until the **maximum possible improvement has been obtained**.

## Why Chiropractic Care?

People go to a Chiropractor for a variety of reasons. Some go for symptomatic relief of a condition (Relief Care). Others are interested in having the cause of the problem as well as the symptoms corrected and relieved (Corrective Care). Still others want whatever is malfunctioning in their bodies brought to the highest state of health possible with chiropractic care (Preventative Care). These are the three phases of care. Your doctor will weigh your needs and desires when recommending your schedule of care. However, the prepared recommendation is an incorporation of all three phases. How long you choose to benefit from Chiropractic is always up to you.

Please check the type of care desired so that we may be guided by your wishes whenever possible:

- Preventative Care – Life Enhancement and Wellness Care
- Corrective Care – Removing Cause and Remodeling Soft Tissue
- Relief Care – Band-Aid Care Only
- Check here if you want the doctor to select the type of care appropriate for your condition.

## Please Read Carefully:

I understand and agree that health and accident insurance policies are an arrangement between an insurance carrier and myself. Furthermore, I understand that the Doctor's Office will prepare any necessary reports and forms to assist me in making collection from the insurance and that any amount authorized to be paid directly to the Doctor's Office will be credited to my account on receipt. However, I clearly understand and agree that all services rendered me are charged directly to me and that I am personally responsible for payment. I also understand that if I suspend or terminate my care at this office, any outstanding charges for professional services rendered me will be immediately due and payable.

I hereby request and consent to the performance of chiropractic adjustments and other chiropractic procedures, including various modes of physical therapy and, if necessary, diagnostic x-rays, on me by the doctor of chiropractic and / or anyone working in this clinic authorized by the doctor of chiropractic.

I have had an opportunity to discuss with the doctor of chiropractic / staff member and / or with other office or clinic personnel, the nature and purpose of chiropractic adjustments and other procedures. I understand that results are not guaranteed.

I further understand and am informed that, as in all health care, in the practice of chiropractic there are some very slight risks to treatment, including, but not limited to, muscle strains and sprains, rib fractures, disc injuries, and strokes. I do not expect the doctor to be able to anticipate and explain all risks and complications and I wish to rely on the doctor to exercise judgment during the course of the procedure which the doctor feels at the time, based upon the facts then known, is in my best interests.

I have read and understood the above and I consent to all examinations and care as deemed appropriate by the Doctor of Chiropractic for my present condition, and for any future conditions for which I may seek care. I realize that I may ask any questions to the Doctor either before or after I sign this consent, and I understand that my consent can be withdrawn at any time.
